Independent Auditors' Report

Board of Directors
Fort Bend County Municipal Utility District No. 155
Fort Bend County, Texas

We have audited the accompanying financial statements of the governmental activities and each major fund of Fort Bend County Municipal Utility District No. 155, as of and for the year ended April 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these basic financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting principles used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient to provide a basis for our audit opinions.

***Board of Directors
Fort Bend County Municipal Utility District No. 155
Fort Bend County, Texas***

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of Fort Bend County Municipal Utility District No. 155, as of April 30, 2020, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The Texas Supplementary Information is presented for purposes of additional analysis and is not a required part of the basic financial statements. The Texas Supplementary Information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied to the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements taken as a whole.

Management's Discussion and Analysis

(This page intentionally left blank)

***Fort Bend County Municipal Utility District No. 155
Management's Discussion and Analysis
April 30, 2020***

Using this Annual Report

Within this section of the financial report of Fort Bend County Municipal Utility District No. 155 (the "District"), the District's Board of Directors provides a narrative discussion and analysis of the financial activities of the District for the fiscal year ended April 30, 2020. This analysis should be read in conjunction with the independent auditors' report and the basic financial statements that follow this section.

In addition to this discussion and analysis, this annual report consists of:

- The District's basic financial statements;
- Notes to the basic financial statements, which provide additional information essential to a full understanding of the data provided in the financial statements;
- Supplementary information required by the Governmental Accounting Standards Board (GASB) concerning the District's budget; and
- Other Texas supplementary information required by the District's state oversight agency, the Texas Commission on Environmental Quality (TCEQ).

Overview of the Financial Statements

The District prepares its basic financial statements using a format that combines fund financial statements and government-wide statements onto one financial statement. The combined statements are the *Statement of Net Position and Governmental Funds Balance Sheet* and the *Statement of Activities and Governmental Funds Revenues, Expenditures and Changes in Fund Balances*. Each statement contains an adjustments column which quantifies the differences between the government-wide and fund level statements. Additional details of the adjustments are provided in Note 2 to the basic financial statements.

Government-Wide Financial Statements

The focus of government-wide financial statements is on the overall financial position and activities of the District, both long-term and short-term. The District's government-wide financial statements consist of the *Statement of Net Position* and the *Statement of Activities*, which are prepared using the accrual basis of accounting. The *Statement of Net Position* includes all of the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the residual reported as net position. Over time, changes in net position may provide a useful indicator of whether the financial position of the District as a whole is improving or deteriorating.

Accounting standards establish three components of net position. The net investment in capital assets component represents the District's investments in capital assets, less any outstanding debt or other borrowings used to acquire those assets. Resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. The restricted component of net position consists of financial resources that are restricted for a specific purpose by enabling legislation or external parties. The unrestricted component of net position represents resources not included in the other components.

Fort Bend County Municipal Utility District No. 155
Management's Discussion and Analysis
April 30, 2020

The *Statement of Activities* reports how the District's net position has changed during the fiscal year. All revenues and expenses are included on this statement, regardless of whether cash has been received or paid.

Fund Financial Statements

The fund financial statements include the *Governmental Funds Balance Sheet* and the *Governmental Funds Revenues, Expenditures and Changes in Fund Balances*. The focus of fund financial statements is on specific activities of the District rather than the District as a whole, reported using modified accrual accounting. These statements report on the District's use of available financial resources and the balances of available financial resources at the end of the year. Except for the General Fund, a specific fund is established to satisfy managerial control over resources or to satisfy finance-related legal requirements established by external parties, governmental statutes or regulations.

For further discussion on the government-wide and fund financial statements, please refer to Note 1 in the financial statements.

Financial Analysis of the District as a Whole

The District's net position at April 30, 2020, was negative \$1,194,129. A comparative summary of the District's overall financial position, as of April 30, 2020 and 2019, is as follows:

	2020	2019
Current and other assets	\$ 7,897,352	\$ 7,696,004
Capital assets	28,654,651	27,083,516
Total assets	<u>36,552,003</u>	<u>34,779,520</u>
Total deferred outflows of resources	<u>194,124</u>	<u>209,278</u>
Current liabilities	1,694,493	1,259,149
Long-term liabilities	36,245,763	34,884,439
Total liabilities	<u>37,940,256</u>	<u>36,143,588</u>
Net position		
Net investment in capital assets	(8,233,175)	(7,732,057)
Restricted	3,781,496	3,350,879
Unrestricted	3,257,550	3,226,388
Total net position	<u>\$ (1,194,129)</u>	<u>\$ (1,154,790)</u>

Fort Bend County Municipal Utility District No. 155
Management's Discussion and Analysis
April 30, 2020

The total net position of the District decreased during the current fiscal year by \$39,339. A comparative summary of the District's *Statement of Activities* for the past two years is as follows:

	2020	2019
Revenues		
Water and sewer service	\$ 1,264,957	\$ 1,155,263
Property taxes, penalties and interest	3,500,648	3,220,443
Other	953,077	856,347
Total revenues	<u>5,718,682</u>	<u>5,232,053</u>
Expenses		
Current service operations	3,357,315	3,102,873
Debt interest and fees	1,150,245	1,137,674
Developer interest	259,952	
Debt issuance costs	316,385	95,496
Depreciation and amortization	674,124	551,352
Total expenses	<u>5,758,021</u>	<u>4,887,395</u>
Change in net position	(39,339)	344,658
Net position, beginning of year	(1,154,790)	(1,499,448)
Net position, end of year	<u>\$ (1,194,129)</u>	<u>\$ (1,154,790)</u>

Financial Analysis of the District's Funds

The District's combined fund balances, as of April 30, 2020, were \$7,342,360, which consists of \$3,243,429 in the General Fund, \$3,970,118 in the Debt Service Fund, and \$128,813 in the Capital Projects Fund.

General Fund

A comparative summary of the General Fund's financial position as of April 30, 2020 and 2019, is as follows:

	2020	2019
Total assets	<u>\$ 3,764,719</u>	<u>\$ 3,537,751</u>
Total liabilities	\$ 507,169	\$ 323,389
Total deferred inflows	14,121	10,927
Total fund balance	3,243,429	3,203,435
Total liabilities, deferred inflows and fund balance	<u>\$ 3,764,719</u>	<u>\$ 3,537,751</u>

Fort Bend County Municipal Utility District No. 155
Management's Discussion and Analysis
April 30, 2020

A comparative summary of the General Fund's activities for the current and prior fiscal year is as follows:

	<u>2020</u>	<u>2019</u>
Total revenues	\$ 3,433,056	\$ 3,123,602
Total expenditures	<u>(3,393,062)</u>	<u>(2,992,680)</u>
Revenues over expenditures	<u>\$ 39,994</u>	<u>\$ 130,922</u>

The District manages its activities with the objectives of ensuring that expenditures will be adequately covered by revenues each year and that an adequate fund balance is maintained. The District's primary financial resources in the General Fund are from a property tax levy, the provision of water and sewer services, fire protection services, and tap connection fees charged to homebuilders in the District. Financial resources are influenced by a variety of factors each year:

- Property tax revenues are dependent upon assessed values in the District and the maintenance tax rate set by the District. While the maintenance component of the levy remained unchanged from prior year, property tax revenues increased from prior year because assessed values increased from prior year.
- Water, sewer and surface water revenues are dependent upon customer usage, which fluctuates from year to year as a result of factors beyond the District's control.
- Revenues from providing fire protection services are based on the number of connections in the District and fluctuate as the number of connections fluctuates.
- Tap connection fees fluctuate with homebuilding activity within the District

Debt Service Fund

A comparative summary of the Debt Service Fund's financial position as of April 30, 2020 and 2019, is as follows:

	<u>2020</u>	<u>2019</u>
Total assets	<u>\$ 4,003,008</u>	<u>\$ 3,542,422</u>
Total liabilities	\$ 3,042	\$ -
Total deferred inflows	29,848	22,953
Total fund balance	<u>3,970,118</u>	<u>3,519,469</u>
Total liabilities, deferred inflows and fund balance	<u>\$ 4,003,008</u>	<u>\$ 3,542,422</u>

***Fort Bend County Municipal Utility District No. 155
Management's Discussion and Analysis
April 30, 2020***

A comparative summary of the Debt Service Fund's activities for the current and prior fiscal year is as follows:

	<u>2020</u>	<u>2019</u>
Total revenues	\$ 2,269,549	\$ 2,094,581
Total expenditures	<u>(1,818,900)</u>	<u>(1,907,912)</u>
Revenues over expenditures	450,649	186,669
Other changes in fund balance		148,804
Net change in fund balance	<u>\$ 450,649</u>	<u>\$ 335,473</u>

The District's financial resources in the Debt Service Fund in both the current year and prior year are from property tax revenues. The difference between these financial resources and debt service requirements resulted in an increase in fund balance each year. It is important to note that the District sets its annual debt service tax rate as recommended by its financial advisor, who monitors projected cash flows in the Debt Service Fund to ensure that the District will be able to meet its future debt service requirements.

Capital Projects Fund

A comparative summary of the Capital Projects Fund's financial position as of April 30, 2020 and 2019 is as follows:

	<u>2020</u>	<u>2019</u>
Total assets	\$ 129,625	\$ 615,831
Total liabilities	\$ 812	\$ 11,243
Total fund balance	<u>128,813</u>	<u>604,588</u>
Total liabilities and fund balance	<u>\$ 129,625</u>	<u>\$ 615,831</u>

A comparative summary of activities in the Capital Projects Fund for the current and prior fiscal year is as follows:

	<u>2020</u>	<u>2019</u>
Total revenues	\$ 5,988	\$ 14,797
Total expenditures	<u>(4,621,763)</u>	<u>(134,471)</u>
Revenues under expenditures	(4,615,775)	(119,674)
Other changes in fund balance	4,140,000	
Net change in fund balance	<u>\$ (475,775)</u>	<u>\$ (119,674)</u>

The District has had considerable capital asset activity in the current year which was financed with proceeds from the issuance of its Series 2019 Unlimited Tax Bonds. The District had no significant capital asset activity in the prior year.

Fort Bend County Municipal Utility District No. 155
Management's Discussion and Analysis
April 30, 2020

General Fund Budgetary Highlights

The Board of Directors adopts an annual unappropriated budget for the General Fund prior to the beginning of each fiscal year. The Board amended the budget during the year to reflect changes in anticipated revenues and expenditures.

Since the District's budget is primarily a planning tool, actual results varied from the budgeted amounts. Actual net change in fund balance was \$292,253 less than budgeted. The *Budgetary Comparison Schedule* on page 36 of this report provides variance information per financial statement line item.

Capital Assets

The District has entered into financing agreements with its developers for the financing of the construction of capital assets within the District. Developers will be reimbursed from proceeds of future bond issues or other lawfully available funds. These developer funded capital assets are recorded on the District's financial statements upon completion of construction.

Capital assets held by the District at April 30, 2020 and 2019 are summarized as follows:

	<u>2020</u>	<u>2019</u>
Capital assets not being depreciated		
Land and improvements	\$ 7,639,211	\$ 7,428,646
Capital assets being depreciated/amortized		
Infrastructure	19,919,380	18,414,935
Investment in regional facilities	3,556,180	3,556,180
Connection charges	1,965,582	1,458,816
Landscaping improvements	70,456	46,973
	<u>25,511,598</u>	<u>23,476,904</u>
Less accumulated depreciation/amortization		
Infrastructure	(3,285,593)	(2,842,939)
Investment in regional facilities	(715,782)	(636,755)
Connection charges	(483,040)	(334,824)
Landscaping improvements	(11,743)	(7,516)
	<u>(4,496,158)</u>	<u>(3,822,034)</u>
Depreciable capital assets, net	<u>21,015,440</u>	<u>19,654,870</u>
Capital assets, net	<u>\$ 28,654,651</u>	<u>\$ 27,083,516</u>

Capital asset additions during the current year include the following:

- Water, sewer, and drainage facilities to serve Bonbrook Plantation South, Section 8
- Lake "C" outfall to serve Bonbrook Plantation
- Landscaping at entrance of Bonbrook Monument

Fort Bend County Municipal Utility District No. 155
Management's Discussion and Analysis
April 30, 2020

Long-Term Debt and Related Liabilities

As of April 30, 2020, the District owes \$2,038,486 to developers for completed projects. The initial cost of the completed project and related liability is estimated based on actual construction costs plus 10-15% for engineering and other fees and is recorded on the District's financial statements upon completion of construction. The District intends to reimburse the developer from proceeds of future bond issues or other lawfully available funds. The estimated cost of amounts owed to the developer is trued up when the developer is reimbursed.

At April 30, 2020 and 2019, the District had total bonded debt outstanding as shown below:

Series	2020	2019
2011	\$ 55,000	\$ 110,000
2013	1,900,000	1,925,000
2014	6,825,000	6,970,000
2015 Refunding	4,665,000	4,955,000
2016	5,175,000	5,275,000
2016A	3,760,000	3,865,000
2018	7,430,000	7,430,000
2018A Refunding	1,645,000	1,670,000
2019	4,140,000	
	\$ 35,595,000	\$ 32,200,000

During the current year, the District issued \$4,140,000 in unlimited tax bonds. At April 30, 2020, the District had \$57,320,000 unlimited tax bonds authorized, but unissued for the purposes of acquiring, constructing and improving the water, sanitary sewer and drainage systems within the District; \$11,000,000 for parks and recreational facilities; and \$61,890,000 for refunding purposes.

Next Year's Budget

In establishing the budget for the next fiscal year, the Board considered various economic factors that may affect the District, most notably projected revenues from property taxes and water/sewer services and the projected cost of operating the District and providing services to customers. A comparison of next year's budget to current year actual amounts for the General Fund is as follows:

	2020 Actual	2021 Budget
Total revenues	\$ 3,433,056	\$ 3,325,400
Total expenditures	(3,393,062)	(3,222,826)
Revenues over expenditures	39,994	102,574
Beginning fund balance	3,203,435	3,243,429
Ending fund balance	\$ 3,243,429	\$ 3,346,003

*Fort Bend County Municipal Utility District No. 155
Management's Discussion and Analysis
April 30, 2020*

Property Taxes

The District's property tax base increased approximately \$34,093,000 for the 2020 tax year from \$344,206,169 to \$378,299,485. This increase was primarily due to new construction in the District and increased property values.

Infectious Disease Outlook (COVID-19)

As further discussed in Note 16, the World Health Organization has declared a pandemic following the outbreak of COVID-19, a respiratory virus currently affecting many parts of the world, including the United States and Texas. The pandemic has negatively affected the economic growth and financial markets worldwide and within Texas. While the potential impact of COVID-19 on the District cannot be quantified at this time, the continued outbreak could have an adverse effect on the District's operations and financial condition by negatively affecting property taxes and ad valorem tax revenues within the District.

Fort Bend County Municipal Utility District No. 155
Notes to Basic Financial Statements
April 30, 2020

Note 1 – Summary of Significant Accounting Policies

The accounting policies of Fort Bend County Municipal Utility District No. 155 (the “District”) conform with accounting principles generally accepted in the United States of America as promulgated by the Governmental Accounting Standards Board (“GASB”). The following is a summary of the most significant policies:

Creation

The District was organized, created and established pursuant to an order of the Texas Commission on Environmental Quality dated August 26, 2005, and operates in accordance with the Texas Water Code, Chapters 49 and 54. The Board of Directors held its first meeting on September 2, 2005 and the first bonds were issued on July 10, 2008.

The District’s primary activities include construction, maintenance and operation of water, sewer and drainage facilities. The District has contracted with various consultants to provide services to operate and administer the affairs of the District. The District has no employees, related payroll or pension costs.

Reporting Entity

The District is a political subdivision of the State of Texas governed by an elected five-member board. The GASB has established the criteria for determining the reporting entity for financial statement reporting purposes. To qualify as a primary government, a government must have a separately elected governing body, be legally separate, and be fiscally independent of other state and local governments, while a component unit is a legally separate government for which the elected officials of a primary government are financially accountable. Fiscal independence implies that the government has the authority to adopt a budget, levy taxes, set rates, and/or issue bonds without approval from other governments. Under these criteria, the District is considered a primary government and is not a component unit of any other government. Additionally, no other entities meet the criteria for inclusion in the District’s financial statements as component units.

Government-Wide and Fund Financial Statements

Government-wide financial statements display information about the District as a whole. These statements focus on the sustainability of the District as an entity and the change in aggregate financial position resulting from the activities of the fiscal period. Interfund activity, if any, has been removed from these statements. These aggregated statements consist of the *Statement of Net Position* and the *Statement of Activities*.

Fund financial statements display information at the individual fund level. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for a specific purpose. Each fund is considered to be a separate accounting entity. Most governments typically have many funds; however, governmental financial statements focus on the most important or “major” funds with non-major funds aggregated in a single column. The District has three governmental funds, which are all considered major funds.

Note 1 – Summary of Significant Accounting Policies (continued)

Government-Wide and Fund Financial Statements (continued)

The following is a description of the various funds used by the District:

- The General Fund is used to account for the operations of the District’s water and sewer system and all other financial transactions not reported in other funds. The principal sources of revenue are property taxes and water and sewer service fees. Expenditures include costs associated with the daily operations of the District.
- The Debt Service Fund is used to account for the payment of interest and principal on the District’s general long-term debt. The primary source of revenue for debt service is property taxes. Expenditures include costs incurred in assessing and collecting these taxes.
- The Capital Projects Fund is used to account for the expenditures of bond proceeds for the construction of the District’s water, sewer and drainage facilities.

As a special-purpose government engaged in a single governmental program, the District has opted to combine its government-wide and fund financial statements in a columnar format showing an adjustments column for reconciling items between the two.

Measurement Focus and Basis of Accounting

The government-wide financial statements use the economic resources measurement focus and the full accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenue in the year for which they are levied.

The fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized in the accounting period in which it becomes both available and measurable to finance expenditures of the current period. For this purpose, the government considers revenues to be available if they are collected within sixty days of the end of the current fiscal period. Revenues susceptible to accrual include property taxes, interest earned on investments and income from District operations. Property taxes receivable at the end of the fiscal year are treated as deferred inflows because they are not considered available to pay liabilities of the current period. Expenditures are recognized in the accounting period in which the liability is incurred, if measurable, except for unmatured interest on long-term debt, which is recognized when due.

Note 2 further details the adjustments from the governmental fund presentation to the government-wide presentation.

Use of Restricted Resources

When both restricted and unrestricted resources are available for use, the District uses restricted resources first, then unrestricted resources as they are needed.

Note 1 – Summary of Significant Accounting Policies (continued)

Prepaid Items

Certain payments made by the District reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements.

Receivables

All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible. Receivables from and payables to external parties are reported separately and are not offset, unless a legal right of offset exists. At April 30, 2020, an allowance of \$13,000 was provided for possible uncollectible water/sewer accounts. An allowance for uncollectible property taxes was not considered necessary.

Unbilled Service Revenues

Utility revenue is recorded when earned. Customers are billed monthly. The estimated value of services provided but unbilled at year-end has been included in the accompanying financial statements.

Interfund Activity

During the course of operations, transactions occur between individual funds. This can include internal transfers, payables and receivables. This activity is combined as internal balances and is eliminated in both the government-wide and fund financial statement presentation.

Capital Assets

Capital assets do not provide financial resources at the fund level, and, therefore, are reported only in the government-wide statements. The District defines capital assets as assets with an initial cost of \$5,000 or more and an estimated useful life in excess of one year. Capital assets are recorded at historical cost or estimated historical cost. Donated capital assets are recorded at acquisition value, which is the price that would be paid to acquire the asset on the acquisition date. The District has not capitalized interest incurred during the construction of its capital assets. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized.

Depreciable capital assets, which primarily consist of water, wastewater and drainage facilities, are depreciated (or amortized in the case of intangible assets) using the straight-line method as follows:

Assets	Useful Life
Infrastructure	20 - 45 years
Connection Charges	25 years [max]
Landscaping improvements	10 - 25 years

Note 1 – Summary of Significant Accounting Policies (continued)

Capital Assets (continued)

The District's detention facilities and drainage channels are considered improvements to land and are non-depreciable.

Deferred Inflows and Outflows of Financial Resources

A deferred inflow of financial resources is the acquisition of resources in one period that is applicable to a future period, while a deferred outflow of financial resources is the consumption of financial resources in one period that is applicable to a future period. A deferred inflow results from the acquisition of an asset without a corresponding revenue or assumption of a liability. A deferred outflow results from the use of an asset without a corresponding expenditure or reduction of a liability.

At the fund level, property taxes receivable not collected within 60 days of fiscal year end do not meet the availability criteria required for revenue recognition and are recorded as deferred inflows of financial resources.

Deferred outflows of financial resources at the government-wide level are from refunding bond transactions in which the amount required to repay the old debt exceeded the net carrying amount of the old debt. This amount is being amortized to interest expense.

Net Position – Governmental Activities

Governmental accounting standards establish the following three components of net position:

Net investment in capital assets – represents the District's investments in capital assets, less any outstanding debt or other borrowings used to acquire those assets.

Restricted – consists of financial resources that are restricted for a specific purpose by enabling legislation or external parties.

Unrestricted – resources not included in the other components.

Fund Balances – Governmental Funds

Governmental accounting standards establish the following fund balance classifications:

Nonspendable - amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact. The District's nonspendable fund balance consists of prepaid items and operating reserves paid to Fort Bend County Municipal Utility District No. 152 for the joint wastewater plant.

Note 1 – Summary of Significant Accounting Policies (continued)

Fund Balances – Governmental Funds (continued)

Restricted - amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments. The District's restricted fund balances consist of unspent bond proceeds in the Capital Projects Fund and property taxes levied for debt service in the Debt Service Fund.

Committed - amounts that can be used only for specific purposes determined by a formal action of the Board of Directors. The Board is the highest level of decision-making authority for the District. Commitments may be established, modified, or rescinded only through ordinances or resolutions approved by the Board. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements. The District does not have any committed fund balances.

Assigned - amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. The District has not adopted a formal policy regarding the assignment of fund balances and does not have any assigned fund balances.

Unassigned - all other spendable amounts in the General Fund.

When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and revenues and expenses/expenditures during the period reported. These estimates include, among others, the collectability of receivables; the value of unbilled utility revenues and receivables; the useful lives and impairment of capital assets; the value of amounts due to developer; and the value of capital assets for which the developer has not been fully reimbursed. Estimates and assumptions are reviewed periodically, and the effects of revisions are reflected in the financial statements in the period they are determined to be necessary. Actual results could differ from the estimates.

Notes to Basic Financial Statements
April 30, 2020

Note 2 – Adjustment from Governmental to Government-wide Basis

Reconciliation of the *Governmental Funds Balance Sheet* to the *Statement of Net Position*

Total fund balance, governmental funds		\$ 7,342,360
--	--	--------------

Capital assets used in governmental activities are not financial resources and, therefore, are not reported as assets in governmental funds.

Historical cost	\$ 33,150,809	
Less accumulated depreciation/amortization	<u>(4,496,158)</u>	
Change due to capital assets		28,654,651

The difference between the face amount of bonds refunded and the amount paid to the escrow agent is recorded as a deferred difference on refunding in the *Statement of Net Position* and amortized to interest expense. It is not recorded in the fund statements because it is not a financial resource.

		194,124
--	--	---------

Amounts due to the District's developers for prefunded construction are recorded as a liability in the *Statement of Net Position*.

		(2,038,486)
--	--	-------------

Long-term liabilities are not due and payable in the current period and, therefore, are not reported as liabilities in the governmental funds, the difference consists of:

Bonds payable, net	(35,172,277)	
Interest payable on bonds	<u>(218,470)</u>	
Change due to long-term debt		(35,390,747)

Property taxes receivable and related penalties and interest have been levied and are due, but are not available soon enough to pay current period expenditures and, therefore, are deferred in the funds.

Property taxes receivable	39,200	
Penalty and interest receivable	<u>4,769</u>	
Change due to property taxes		43,969

Total net position - governmental activities		<u><u>\$ (1,194,129)</u></u>
--	--	------------------------------

Fort Bend County Municipal Utility District No. 155
Notes to Basic Financial Statements
April 30, 2020

Note 2 – Adjustment from Governmental to Government-wide Basis (continued)

Reconciliation of the *Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances* to the *Statement of Activities*

Net change in fund balances - total governmental funds	\$	14,868
<p>Governmental funds do not report revenues that are not available to pay current obligations. In contrast, such revenues are reported in the <i>Statement of Activities</i> when earned. The difference is for property taxes and related penalties and interest.</p>		
		10,089
<p>Governmental funds report capital outlays for developer reimbursements and construction costs as expenditures in the funds. In the government wide statements, the cost of capital assets are charged to expense over the remaining life of asset, while developer reimbursements reduce the amount due to developer.</p>		
		4,081,182
<p>The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of principal uses current financial resources. However, neither transaction has any effect on net assets. Other elements of debt financing are reported differently between the fund and government wide statements.</p>		
Proceeds from sale of bonds	\$	(4,140,000)
Principal payments		745,000
Interest expense accrual		(76,354)
		(3,471,354)
<p>In the <i>Statement of Activities</i>, the cost of capital assets is charged to depreciation/amortization expense over the estimated useful life of the asset.</p>		
		(674,124)
Change in net position of governmental activities	\$	(39,339)

Note 3 – Deposits and Investments

Deposit Custodial Credit Risk

Custodial credit risk as it applies to deposits (i.e. cash) is the risk that, in the event of the failure of the depository institution, a government will not be able to recover its deposits or will not be able to recover collateral securities. The *Public Funds Collateral Act* (Chapter 2257, Texas Government Code) requires that all of the District's deposits with financial institutions be covered by federal depository insurance and, if necessary, pledged collateral held by a third-party custodian. The act further specifies the types of securities that can be used as collateral. The District's written investment policy establishes additional requirements for collateralization of deposits.

Fort Bend County Municipal Utility District No. 155
Notes to Basic Financial Statements
April 30, 2020

Note 3 – Deposits and Investments (continued)

Investments

The District is authorized by the *Public Funds Investment Act* (Chapter 2256, Texas Government Code) to invest in the following: (1) obligations, including letters of credit, of the United States or its agencies and instrumentalities, including Federal Home Loan Banks, (2) direct obligations of the State of Texas or its agencies and instrumentalities, (3) certain collateralized mortgage obligations, (4) other obligations, which are unconditionally guaranteed or insured by the State of Texas or the United States or its agencies or instrumentalities, including obligations that are fully guaranteed or insured by the Federal Deposit Insurance Corporation or by the explicit full faith and credit of the United States, (5) certain A rated or higher obligations of states and political subdivisions of any state, (6) bonds issued, assumed or guaranteed by the State of Israel, (7) certain insured or collateralized certificates of deposit and share certificates, (8) certain fully collateralized repurchase agreements, (9) bankers' acceptances with limitations, (10) commercial paper rated A-1 or P-1 or higher and a maturity of 270 days or less, (11) no-load money market mutual funds and no-load mutual funds, with limitations, (12) certain guaranteed investment contracts, (13) certain qualified governmental investment pools and (14) a qualified securities lending program.

The District has adopted a written investment policy to establish the principles by which the District's investment program should be managed. This policy further restricts the types of investments in which the District may invest.

As of April 30, 2020, the District's investments consist of the following:

Type	Fund	Carrying Value	Rating	Weighted Average Maturity
TexPool	General	\$ 13,297	AAAm	31 days
	Capital Projects	127,215		
		<u>140,512</u>		
Texas CLASS	General	3,306,726	AAAm	55 days
	Debt Service	3,963,768		
		<u>7,270,494</u>		
Total		<u>\$ 7,411,006</u>		

Note 3 – Deposits and Investments (continued)

TexPool

The District participates in TexPool, the Texas Local Government Investment Pool. The State Comptroller of Public Accounts exercises oversight responsibility of TexPool, which includes (1) the ability to significantly influence operations, (2) designation of management and (3) accountability for fiscal matters. Additionally, the State Comptroller has established an advisory board composed of both participants in TexPool and other persons who do not have a business relationship with TexPool. The Advisory Board members review the investment policy and management fee structure.

As permitted by GAAP, TexPool uses amortized cost (which excludes unrealized gains and losses) rather than market value to compute share price and seeks to maintain a constant dollar value per share. Accordingly, the fair value of the District's position in TexPool is the same as the value of TexPool shares. Investments in TexPool may be withdrawn on a same day basis, as long as the transaction is executed by 3:30 p.m.

Texas CLASS

The District also participates in Texas Cooperative Liquid Assets Securities System (Texas CLASS). Texas CLASS is managed by an elected Board of Trustees consisting of members of the pool. Additionally, the Board of Trustees has established an advisory board, the function of which is to provide guidance on investment policies and strategies. The Board of Trustees has selected Public Trust Advisors, LLC as the program administrator and Wells Fargo Bank as the custodian.

The District's investment in Texas CLASS is reported at fair value because Texas CLASS uses fair value to report investments (other than repurchase agreements which are valued at amortized cost). Governmental accounting standards establish the following hierarchy of inputs used to measure fair value: Level 1 inputs are based on quoted prices in active markets, Level 2 inputs are based on significant other observable inputs, and Level 3 inputs are based on significant unobservable inputs. The District's investment in Texas CLASS is measured using published fair value per share (level 1 inputs).

Investments in Texas CLASS may be withdrawn via wire transfer on a same day basis, as long as the transaction is executed by 4 p.m. ACH withdrawals made by 4 p.m. will settle on the next business day.

Investment Credit and Interest Rate Risk

Investment credit risk is the risk that the investor may not recover the value of an investment from the issuer, while interest rate risk is the risk that the value of an investment will be adversely affected by changes in interest rates. The District's investment policies do not address investment credit and interest rate risk beyond the rating and maturity restrictions established by state statutes.

Fort Bend County Municipal Utility District No. 155
Notes to Basic Financial Statements
April 30, 2020

Note 4 – Interfund Balances and Transactions

Amounts due to/from other funds at April 30, 2020, consist of the following:

Receivable Fund	Payable Fund	Amounts	Purpose
Debt Service Fund	General Fund	\$ 102	Debt service tax collections not remitted as of year end.

Amounts reported as internal balances between funds are considered temporary balances and will be paid during the following fiscal year.

Note 5 – Capital Assets

A summary of changes in capital assets, for the year ended April 30, 2020, is as follows:

	Beginning Balances	Additions/ Adjustments	Ending Balances
Capital assets not being depreciated			
Land and improvements	\$ 7,428,646	\$ 210,565	\$ 7,639,211
Capital assets being depreciated/amortized			
Infrastructure	18,414,935	1,504,445	19,919,380
Investment in regional facilities	3,556,180		3,556,180
Connection charges	1,458,816	506,766	1,965,582
Landscaping improvements	46,973	23,483	70,456
	<u>23,476,904</u>	<u>2,034,694</u>	<u>25,511,598</u>
Less accumulated depreciation/amortization			
Infrastructure	(2,842,939)	(442,654)	(3,285,593)
Investment in regional facilities	(636,755)	(79,027)	(715,782)
Connection charges	(334,824)	(148,216)	(483,040)
Landscaping improvements	(7,516)	(4,227)	(11,743)
	<u>(3,822,034)</u>	<u>(674,124)</u>	<u>(4,496,158)</u>
Subtotal depreciable capital assets, net	<u>19,654,870</u>	<u>1,360,570</u>	<u>21,015,440</u>
Capital assets, net	<u>\$ 27,083,516</u>	<u>\$ 1,571,135</u>	<u>\$ 28,654,651</u>

Depreciation and amortization expenses for the current year were \$674,124.

Fort Bend County Municipal Utility District No. 155
Notes to Basic Financial Statements
April 30, 2020

Note 6 – Due to Developers

The District has entered into financing agreements with its developers for the financing of the construction of water, sewer, drainage facilities. Under the agreements, the developers will advance funds for the construction of facilities to serve the District. The developers will be reimbursed from proceeds of future bond issues or other lawfully available funds, subject to approval by TCEQ, as applicable. The District does not record the capital asset and related liability on the government-wide statements until construction of the facilities is complete. The initial cost is estimated based on construction costs plus 10-15% for engineering and other fees. Estimates are trued up when the developer is reimbursed.

Changes in amounts due to developers during the year are as follows:

Due to developers, beginning of year	\$	3,874,410
Developer funded construction and adjustments		1,605,820
Developer reimbursements		<u>(3,441,744)</u>
Due to developers, end of year	\$	<u>2,038,486</u>

Note 7 – Long-Term Debt

Long-term debt is comprised of the following:

Bonds payable	\$	35,595,000
Unamortized discounts		<u>(422,723)</u>
	\$	<u>35,172,277</u>
Due within one year	\$	<u>965,000</u>

Fort Bend County Municipal Utility District No. 155
Notes to Basic Financial Statements
April 30, 2020

Note 7 – Long-Term Debt (continued)

The District’s bonds payable at April 30, 2020, consists of unlimited tax bonds as follows:

Series	Amounts Outstanding	Original Issue	Interest Rates	Maturity Date, Serially, Beginning/ Ending	Interest Payment Dates	Call Dates
2011	\$ 55,000	\$ 2,015,000	3.25% - 5.70%	September 1, 2012/2033	September 1, March 1	September 1, 2018
2013	1,900,000	2,050,000	2.00% - 4.00%	September 1, 2014/2036	September 1, March 1	September 1, 2020
2014	6,825,000	7,235,000	2.00% - 4.00%	September 1, 2017/2038	September 1, March 1	September 1, 2021
2015 Refunding	4,665,000	5,650,000	2.00% - 3.25%	September 1, 2016/2032	September 1, March 1	September 1, 2022
2016	5,175,000	5,375,000	2.00% - 3.50%	September 1, 2018/2040	September 1, March 1	September 1, 2023
2016A	3,760,000	3,970,000	2.00% - 4.50%	September 1, 2018/2040	September 1, March 1	September 1, 2023
2018	7,430,000	7,430,000	2.05% - 3.80%	September 1, 2020/2042	September 1, March 1	September 1, 2023
2018A Refunding	1,645,000	1,670,000	2.30% - 4.00%	September 1, 2019/2033	September 1, March 1	September 1, 2023
2019	4,140,000	4,140,000	2.00% - 3.00%	September 1, 2022/2043	September 1, March 1	September 1, 2024
	<u>\$ 35,595,000</u>					

Payments of principal and interest on all series of bonds are to be provided from taxes levied on all properties within the District. Investment income realized by the Debt Service Fund from investment of idle funds will be used to pay outstanding bond principal and interest. The District is in compliance with the terms of its bond resolutions.

At April 30, 2020, the District had authorized but unissued bonds in the amount of \$57,320,000 for water, sewer and drainage facilities; \$11,000,000 for park and recreational facilities; and \$61,890,000 for refunding purposes.

On December 11, 2019, the District issued its \$4,140,000 Series 2019 Unlimited Tax Bonds at a net effective interest rate of 2.926488%. Proceeds of the bonds were used to reimburse developers for the cost of capital assets constructed within the District plus interest expense at the net effective interest rate of the bonds.

Fort Bend County Municipal Utility District No. 155
Notes to Basic Financial Statements
April 30, 2020

Note 7 – Long-Term Debt (continued)

The change in the District’s long-term debt during the year is as follows:

Bonds payable, beginning of year	\$	32,200,000
Bonds issued		4,140,000
Bonds retired		<u>(745,000)</u>
Bonds payable, end of year	\$	<u>35,595,000</u>

As of April 30, 2020, annual debt service requirements on bonds outstanding are as follows:

Year	Principal	Interest	Totals
2021	\$ 965,000	\$ 1,181,454	\$ 2,146,454
2022	1,115,000	1,124,663	2,239,663
2023	1,160,000	1,092,171	2,252,171
2024	1,200,000	1,059,846	2,259,846
2025	1,245,000	1,026,489	2,271,489

Fort Bend County Municipal Utility District No. 155
Notes to Basic Financial Statements
April 30, 2020

Note 8 – Property Taxes

On November 8, 2005, the voters of the District authorized the District’s Board of Directors to levy taxes annually for use in financing general operations limited to \$1.50 per \$100 of assessed value. The District’s bond resolutions require that property taxes be levied for use in paying interest and principal on long-term debt and for use in paying the cost of assessing and collecting taxes. Taxes levied to finance debt service requirements on long-term debt are without limitation as to rate or amount.

All property values and exempt status, if any, are determined by the Fort Bend Central Appraisal District. Assessed values are determined as of January 1 of each year, at which time a tax lien attaches to the related property. Taxes are levied around October/November, are due upon receipt and are delinquent the following February 1. Penalty and interest attach thereafter.

Property taxes are collected based on rates adopted in the year of the levy. The District’s 2020 fiscal year was financed through the 2019 tax levy, pursuant to which the District levied property taxes of \$1.00 per \$100 of assessed value, of which \$0.36 was allocated to maintenance and operations and \$0.64 was allocated to debt service. The resulting tax levy was \$3,442,072 on the adjusted taxable value of \$344,206,169.

Property taxes receivable, at April 30, 2020, consisted of the following:

Current year taxes receivable	\$ 36,041
Prior years taxes receivable	3,159
	<u>39,200</u>
Penalty and interest receivable	4,769
Property taxes receivable	<u>\$ 43,969</u>

Note 9 – Water Supply Contract with the City of Rosenberg

On February 22, 2005, Bonbrook Plantation, L.P. and Beazer Homes, L.P. (the “Developers”) entered into a Water Supply and Wastewater Services Agreement (the “Agreement”) with the City of Rosenberg, Texas (the “City). The Agreement was assigned to the District by the Developers on October 19, 2005. Under the terms of the Agreement, the District will obtain water supply services from the City on a permanent basis. The District will pay the City a monthly fee for these services based on then current rates of the City’s own customers, minus any amount by which the City Council has reduced those rates. During the year ended April 30, 2020, the District recorded expenditures of \$435,503 for water used by customers of the District.

The District will pay a connection charge to the City, for each equivalent single-family connection (ESFC), to cover capital costs incurred by the City related to the provision of water supply facilities. The City will reserve water capacity to the District for payment of the connection charges. The City agreed to provide up to 1,730 ESFCs to the District. The District also owns a non-potable lake replenishment well that is in the City’s plan.

Fort Bend County Municipal Utility District No. 155
Notes to Basic Financial Statements
April 30, 2020

Note 9 – Water Supply Contract with the City of Rosenberg (continued)

The First Supplement to the Agreement (the “Supplement”), effective December 18, 2012, updated and expanded the original Agreement. Based on development at the time of the Supplement, the ultimate number of ESFC is 1,293, instead of 1,730 as originally projected. The cost of the agreed upon connections of 1,293 for water supply capacity was \$737.84 per ESFC. Any additional ESFCs, above the agreed upon 1,293, will be paid in accordance with the City’s connection charges and/or impact fees in effect at that time.

The District receives wastewater treatment services pursuant to its contracts with other Districts (See Note 11) and does not pay the City a connection charge for wastewater capacity or a monthly fee for wastewater services at this time. The District shall continue to receive wastewater treatment services by the terms of these contracts and, consequently, shall not be required to pay any connection charge to the City that is attributable to wastewater capacity for any areas within the District as of the date of the Supplement.

As of April 30, 2020, the District has paid \$1,965,582 in capacity charges to the City. The District’s developers continue to pay capacity charges to the City, on behalf of the District. These amounts are reimbursed to the developers from bond proceeds or other lawfully available funds of the District from time to time.

Note 10 – Groundwater Reduction Plan Agreement

The Texas Legislature created the Fort Bend Subsidence District in order to regulate groundwater pumping, and the Subsidence District adopted a Regulatory Plan that certain water well permit holders, including the District, must reduce groundwater usage, either individually or by participating in a group. To satisfy this mandate, on May 5, 2009, the District and the City of Rosenberg (the “City”) entered into a Groundwater Reduction Plan Participation Agreement (the “Plan”).

The Plan states that the City will be the administrator and is responsible for producing and submitting a Plan to the Subsidence District conforming to the minimum requirements. The City also agrees to pay all costs associated with the Plan with future bond proceeds issued by the City.

The District agrees to pay the City a surface water fee (“GRP Fee”) based on water pumped by or supplied by the City to the District at the rate of which the City charges to its customers. Effective January 1, 2020, the GRP rate is \$2.60 per 1,000 gallons of groundwater pumped from the District’s wells. The District passes this fee on to its customers. The Plan will remain in effect as long as the regulatory plan for surface water conversion is in effect. During the year ended April 30, 2020, the District recorded \$358,655 in revenue and \$410,335 in expenditures pursuant to this agreement.

Note 11 – Cost-sharing Agreements for the Interim Wastewater Treatment Plant

The District has entered into cost-sharing agreements with Fort Bend County Municipal Utility District No. 152 (MUD 152) and Fort Bend County Municipal Utility District No. 158 (MUD 158) for the construction, maintenance and operation of an interim wastewater treatment plant (WWTP). Pursuant to the terms of these agreements, MUD 152 is responsible for the operation and maintenance of the plant and will invoice the other districts on a monthly basis for their pro-rata share of the subsequent fiscal year's budgeted operating expenses. On April 6, 2016, the District entered into a cost-sharing agreement with MUD 152 and MUD 158 for the construction, maintenance and operation of phase four of the WWTP.

During the current fiscal year, the District recorded \$526,461 in operating expenditures related to these agreements. The District has also paid \$30,000 to meet the reserve requirement of the joint wastewater treatment plant.

Note 12 – Cost-sharing Agreement for the Second Lift Station and Force Main

On August 2, 2016, the District entered into a cost-sharing agreement with MUD 152 and MUD 158 for the construction, maintenance and operation of the second lift station and force main. Pursuant to the terms of this agreement, the District is responsible for its pro rata share of the construction costs. MUD 152 is responsible for the operation and maintenance of the lift station facilities and will invoice the other districts on an annual basis for their pro-rata share of the subsequent fiscal year's budgeted expenses. Upon completion of the second lift station facilities, the District's right of capacity in the facilities will be 42.91%, equivalent to 1,682 ESFCs, of total capacity.

During the current fiscal year, the District recorded \$30,200 in operating expenditures related to this agreement.

Note 13 – Fire Protection Agreement

On September 4, 2012, the District and the City of Rosenberg (the "City") entered into a Restated and Amended Fire Station Agreement (the "Agreement"). Pursuant to this agreement, the District charges \$20.00 per residential property and per 2,000 square feet of each improved nonresidential property that is connected to public water supply system. The charge can be adjusted once every two years. In return, the District will receive fire protection services for residential and commercial improvements in the District. For the year ended April 30, 2020, the District has recorded \$361,940 in fire protection fees related to this agreement.

Note 14 – Pavilion Agreement

On September 9, 2019, the District entered into an agreement with the Bonbrook Plantation Homeowner Association, a non-profit association (the "Association") for the purposes of designing and constructing a pavilion within the boundaries of the District. Pursuant to the agreement, the District is responsible for the design and construction of the pavilion. Upon completion of the pavilion, the Association will accept the pavilion for ownership and maintenance. During the current year, the District paid \$340,485 for design and construction of the pavilion.

Note 15 – Risk Management

The District is exposed to various risks of loss related to torts: theft of, damage to and destruction of assets; errors and omissions; and personal injuries. The risk of loss is covered by commercial insurance. There have been no significant reductions in insurance coverage from the prior year. Settlement amounts have not exceeded insurance coverage for the current year or the three prior years.

Note 16 – Infectious Disease Outlook (COVID-19)

The World Health Organization has declared a pandemic following the outbreak of COVID-19, a respiratory disease caused by a new strain of coronavirus (the “Pandemic”), which is currently affecting many parts of the world, including the United States and Texas. Federal, state and local governments have all taken actions to respond to the Pandemic, including disaster declarations by both the President of the United States and the Governor of Texas. On March 31, 2020, the Governor issued an executive order closing all non-essential businesses in the State. This order expired on April 30, 2020. Additionally, all the counties in the greater Houston area adopted various “Work Safe – Stay Home” orders. Such actions are focused on limiting instances where the public can congregate or interact with each other. These precautions resulted in the temporary closure of all non-essential businesses in the State.

Since the disaster declarations were made, the Pandemic has negatively affected travel, commerce, and financial markets locally and globally, and is widely expected to continue negatively affecting the economic growth and financial markets worldwide and within Texas. These negative impacts may reduce or negatively affect property taxes and ad valorem tax revenues within the District.

While the potential impact of COVID-19 on the District cannot be quantified at this time, the continued outbreak of COVID-19 could have an adverse effect on the District’s operations and financial condition.
